BIG MORNING BLAZE ON SOUTH SIDE

Saw Mill of the Paducah Co-op-
erage Company Burned.

The Loss Will be \$10,000, Par-
tially Covered by In-
surance.

FIRE STARTED FROM SPARK

The saw mill of the Paducah Co-op-
erage Company, in Mechanicsburg,
near the Rehkopf saw-yard, was de-
stroyed by fire shortly after 4 o'clock
this morning, entailing a loss of about
\$10,000, partially covered by insur-
ance.

The blaze is supposed to have origi-
nated from a spark from the furnace
which ignited some saw dust. It
probably burned some time before the
flames burst forth, and not until then
did the watchman discover the fire on
account of a petition.

It was only a few moments after
the blaze shot up until the structure
was a mass of flames, and the watch-
man sent in a fire alarm over the
Western Union's signal service, and a
few moments another alarm was sent
in over the city's system. The alarm
was at 4:05 o'clock.

Both departments made quick
runs, considering the distance they
had to go, but the structure was prac-
tically destroyed when they reached
the scene, and they set about saving
the surrounding buildings.

Some of the saw yard buildings were
scorched, and some damage to stock
was done by water, but the buildings
were all saved, as were others in the
vicinity.

The Co-operation company's building
burned contained the machinery for
sawing, and was formerly a part of
the Kilgore plant, before the forma-
tion several months ago of the Paducah
Co-operation company from the Kil-
gore, Hiram Blow and Hollingshead
factories.

It was stated at the Co-operation Com-
pany's office today that the loss would
be about \$10,000, partially covered by
insurance, and that the conflagration
would not in any way interfere with
their contracts, or the operation of
the big plant and delivery of goods,
although it will temporarily deprive a
number of men of work.

Insurance adjusters are expected im-
mediately to settle the loss, and the
work of building a new saw mill and
installing new machinery will begin
as soon thereafter as possible.

Manager Roper, of the Western
Union, and the manufacturers of the
south side, seem to be well pleased
with the promptness and efficiency of
the telegraph fire alarm service, and
the alarm would have been turned
into central station a minute or two
sooner had the Western Union system
been connected with the city's, as the
Western Union has requested permis-
sion to do.

DATE CHANGED

ATHLETIC MEET WILL BE APRIL
22 INSTEAD OF APRIL 23.

The interscholastic athletic meet
being arranged by Physical Director
H. E. Steele of the Y. M. C. A. be-
tween different teams in the eighth
grade and high school of the Paducah
public schools, will take place April 22
instead of April 23, as originally an-
nounced.

The meet will take place at the
West End fair grounds, and a small
admission will be charged. The boys
are looking forward to it with great
enthusiasm.

rod, a deserter from the U. S. army
who was being taken to Ft. Thomas

HEARST MEN HERE ARE GETTING BUSY

Former Mayor Lang One of the
Hearst Enthusiasts.

The Free Silver Democrats Seem to
be Largely in Favor of the
Editor.

EXPECT TO CARRY COUNTY

William Randolph Hearst, the
editor-Congressman-statesman, has
quite a following in Paducah, although
little has been heard of it. It has de-
veloped that a lot of Bryan men are
tooth and toe for Hearst, and de-
clare that they intend to carry the
county for him, despite statements that
the Democrats of this county and dis-
trict are for Parker.

One of the most enthusiastic Hearst
men in Paducah is Hon. James M.
Lang, former Mayor, and his drug
store is a sort of Hearst headquarters.
One of his lieutenants is Col. Joe Pot-
ter, formerly councilman, and it is
found on investigation that Hearst has
a large following, many of whom visit
the drug store daily and talk over
prospects.

A great deal of work is being done
throughout the country districts for
the newspaper man, and it seems to
be quite effective, as he seems to be
the only Democrat who is really out
seeking the nomination, and working
for it. The others mentioned for the
nomination do not appear to want it,
and apparently little work, if any, is
being done for them.

Former Mayor Lang is very en-
thusiastic for Mr. Hearst, and stated
this morning that he is for him
"right, last and all the time."

"I think that all the Bryan men are
for Hearst," he said to a reporter to-
day. "If they are not they ought to
be. He is the only candidate promi-
nently mentioned by the Democrats
who advocates the principles espoused
by Mr. Bryan. We expect to win in
the county."

Former Mayor Lang stated that he
would not vote for Cleveland even
should he be nominated.

Many Democrats decline to express
a choice, as they can't tell which
way the cat is going to jump. Mayor
Yeiser was asked how he stood but as
usual, the Mayor himself didn't know.
He said he was for anyone nominated
by the Democrats. Thus far he has
no preference.

It begins to look as if there is going
to be a lively fight in McCracken
county for the delegates to the Demo-
cratic convention. Since Cleveland
came out for Judge Parker, the lat-
ter's popularity in this section seems
to be on the wane, especially among
the free-silver crowd, which predom-
inates in the Democratic party.

GESTION RELATIVE TO

HALF A MILLION WILL BE MUSTERED

Russia Will Do Nothing Until
She is Ready.

Operations on a Large Scale Expected
by Summer—No Skirmish
Lately.

LITTLE FROM FAR EAST

St. Petersburg, April 12.—Excep-
tionally reliable information regard-
ing the Russian military plans confirm
the repeated announcements made by
the Associated Press that these plans
will not mature until late in the season.
They are of far greater magnitude
than is believed abroad, and take into
account all possible contingencies.

Gen. Kuropatkin, remembering the
experience of Russia during her war
with Turkey, when the Russian army
of 30,000 placed in the field at the be-
ginning had to be more than doubled,
has insisted that the men and guns to
be placed at his disposal shall cover
the extreme limit required to settle the
fate of the campaign.

The Russian plans are predicted
upon Napoleon dictum, that "God
fights on the side of the heavy bat-
talions" and they are being worked out
and timed so as to be of superior num-
bers on sea and land simultaneously.

The army is designed to attain the
enormous total of half a million at
the time scheduled for the reinforce-
ment of Vice Admiral Makaroff's fleet,
with the Baltic squadron.

NEW CHWANG IMPREGNABLE.

St. Petersburg, April 12.—Your
correspondent this morning had an
interview with the officer of the of-
ficial staff, who stated that New
Chwang is in a perfect state of de-
fense. The city, he said, is impreg-
nable, except for a long siege. The
earthworks are so perfectly arranged
that a surprise by land is rendered im-
possible while a sea attack in too large
a degree precluded by the countless
mines and torpedoes which guard the
harbor.

SQUADRON SIGHTED.

St. Petersburg, April 12.—An of-
ficial dispatch from Port Arthur states
that the Japanese squadron appeared
on the horizon off the Port this morn-
ing, but did not approach the fortifi-
cations. It proceeded on its way, ap-
parently in the direction of New
Chwang.

RUSSIA PROTESTS AGAIN.

London, April 12.—The Tien Tsin
correspondent of the Standard says
that Russia has again protested
against the presence of Chinese troops
on the Manchurian frontier, and has
demanded their withdrawal within a
five mile limit of the great wall.

NO SKIRMISH IN MACHURIA.

St. Petersburg, April 12.—Chief
of staff Piling telegraphs from Mukden
that there is no truth in the report
that the Japanese crossed the Yalu,
and had skirmishes with the Russian
forces on the Manchurian side of the
stream.

CAR BARNS BURN

DAMAGE OF \$200,000 AT BUFFA-
LO, N. Y., TODAY.

Buffalo, April 12—Early this morn-
ing the car barns of the International
Railway Co., and forty cars were de-
stroyed by a fire which the firemen
could not control. The loss is esti-
mated at three hundred thousand dol-
lars. There are indications that it was
of incendiary origin.

TUG SINKS

AND THREE MEN LOST THEIR
LIVES AT PORT SABLE.

Manistee, Mich., April 12—The tug
Frank Canfield ran aground at Port
Sable last night and sank. The cap-
tain, engineer and a sailor lost their
lives.

RECEIVES A CALL

Rev. John W. Sykes Will go to
Wisconsin.

Rector of Grace Episcopal Church to
Leave at Once for New Home.

Rev. J. W. Sykes, until recently
rector of Grace church, today received
a call from the bishop of the diocese
of Fond-Du-Lac, Wis., to report at once,
and take charge of one of the churches
in the diocese. It is not stated what
parish it is, and Rev. Mr. Sykes does
not know which one it is, but he will
leave at once to assume charge, and
expects to get away Thursday, if not
sooner.

Rev. Mr. Sykes has been in Paducah
for the past two years, and has a
host of friends here who will wish
him success in his new field.

His daughter, Miss Mary Sykes, left
last night for Washington to visit
relatives, and will join him in their
new home later.

WINDOWS BROKEN.

BUT SCHOOL AUTHORITIES DE-
CLINE TO GET WARRANTS.

Several days ago Franklin school
on South Sixth street was stoned by
boys and a large number of windows
were broken out. The school authori-
ties reported to the police the names
of the boys supposed to have commit-
ted the vandalism, but as they declin-
ed to swear out warrants the police
declined to arrest any of the boys.
The school authorities, according to
the police, wanted them to arrest the
boys to "give them a scare," but the
officers say they are not in that busi-
ness, and will make arrests only when
legally justified.

TOWN COW BUSY ENJOYING SPRING

Much Damage is Being Done in Various Parts of the City.

Some of the Methods Adopted by Citizens to Keep Them Away From Yards.

IMPRISONMENT IS TRIED

The arrival of spring has started another crusade against the town cow. As usual, however, it is limited largely to talk. As the yards begin to assume a shade of green and the flowers and grass and shrubbery begin to sprout, the patient bovine lightly trips down the street, looking first to the right, then to the left, and when she sees what she wants she usually finds a way to get it.

These ruthless destroyers of horticultural specimens have various ways of reaching their goal. Some of them jump the fence, others open the gate, while still others are shrewd enough to go around to the back fence and slip in when the woodman leaves the gate open.

As the city will do nothing, however, towards keeping the animals up, citizens have been left to their own resources. Some of them use scalding water, others use sticks and stones, others pen up the animals and milk them several days, thus getting some benefit from the damage done to their lawns, while one woman a few days ago kept two cows shut up in the stable two days and nights without food and water. Another took all the hide off an animal's back with boiling water, and occasionally a cow is found with mutilated remnants of a tin can on her candle appendage.

Most people, however, do not blame the cows, as when they are turned loose they look to instinct, and doubtless think they are privileged to go whither they will. It is the person who turns them loose to prey on his neighbor who is really to blame, and who would probably not always get off so lightly as the cow does if some of the irate citizens who go out in the yard early in the morning to find their choicest flower eaten, their vines tramped down and the grass gone, could find him instead of the cow.

The promised relief of the board of public works, however, has proven obnoxious to the public, and it is hoped the request to be made of the legislative boards to pass a general stock law will not be delayed.

A DANDY FOR BURNS.

Dr. Bergin, Pana, Ill., writes: "I have used Ballard's Snow Liniment; always recommended it to my friends; as I am confident there is no better made. 'It is a dandy for burns.' Those who live on farms are specially liable to many accidental cuts, burns, bruises, which heal rapidly when Ballard's Snow Liniment is applied. It should always be kept in the house for cases of emergency." 25c, 50c, \$1 bottle.

NOTHING DONE

ELKS BUILDING COMMITTEE TO REFER MATTER TO THE LODGE.

The Elks building committee held a meeting last night and on account of a disagreement relative to the plans for the proposed new building, decided to refer the matter of furnishing plans back to the lodge for action. The plans for the building had already been selected, and the action of the association ratified by the lodge, but some of the building committee afterwards wanted to rescind its action and advertise for more plans. It was decided last night to refer the whole thing back to the lodge for action. Secretary of the committee J. O. Flournoy resigned, subject to the action of the lodge.

Mrs. C. Peterson, 625 Lake street, Topeka, Kansas, says: "Of all cough remedies Ballard's Horehound Syrup is my favorite; it has done and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste." 25c, 50c, \$1 bottle.

TWO FIREMEN HURT ON I. C. YESTERDAY

One Thrown From His Cab and Almost Crushed.

Another Saw a Headlight and Thinking a Collision Imminent, Jumped.

BOTH PAINFULLY HURT

Fireman Ed. L. Jones, employed on the Paducah district of the I. C., is laid up in the local railroad hospital with a badly sprained right ankle, a badly sprained right knee and is in addition painfully bruised about the body, all the result of a wild jump from his engine last night at Calvert City, about 8 o'clock, when Jones thought he saw a train standing on the main line.

Jones jumped into a cattle gate which accounts for the extent of his injuries.

When rounding the Calvert curve Jones was looking back at his train, and when he glanced ahead again saw a head light right in front, appearing to be that of another train standing on the main line. The fireman giving the matter no second thought, hastily gained the side of the cab and jumped.

He alighted on all fours on the cattle gate and when picked up by trainmen was unable to walk. Another fireman was secured to act in his place, and Jones returned to Paducah to receive treatment. The train which Jones supposed to be standing on the main line, was in reality on a siding and waiting for the other freight to pass. The peculiar position taken by the "dead" train as Jones engine dashed around the curve, made it appear to be standing on the main line.

Fireman S. D. Watkins, employed on the Louisville division of the I. C., fell off his engine yesterday afternoon about 4 o'clock and narrowly escaped instant death under the big wheels of his engine.

Watkins was putting in fire when his foot slipped on some grease and threw him off his balance. The shaking engine made it impossible to regain his equilibrium and he fell, vainly trying to grasp the sides of the cab as he descended. The unfortunate young man succeeded in pushing himself away from the fast revolving wheels and thus escaped probable death.

He was picked up by the train crew and brought here for treatment and is in a serious condition. The face is horribly bruised and out and the breast painfully crushed and bruised. He will be confined in the hospital for several weeks, the result of the accident.

ARM BURNED OFF.

Columbus, Ky., April 12.—Jack Gayle, an epileptic was seized with a fit at his home, and, in falling knocked a lighted lamp to the floor, which broke, setting fire to the carpet. He fell in the blaze, and his left arm was burned to a crisp before his aged mother, who was with him, could extinguish the flames.

BLOCK SIGNALS FOR THIS DISTRICT

The Illinois Central Announces Important Improvements.

The Division From Louisville to Paducah to Be Equipped at a Cost of \$60,000.

WORK TO BEGIN SOON.

A matter which has been under consideration by I. C. officials for several months has just been definitely decided, as is proved by the announcement of Superintendent A. H. Egan, of the Louisville division of the I. C., who has stated in Louisville that block signals will be immediately installed on the Paducah district of the I. C.

The announcement of this great improvement will come as a pleasure to local railroad men as well as railroad men employed on the entire Louisville division. The costs of the improvements will amount to over \$60,000 and work will begin at once.

Block signals are used on all the big roads in the east where business is good and block systems are considered absolutely necessary for the preservation of life and property. The action of the Illinois Central in placing block signals on this division is the result of the several inspections made by the many different officials during the past two months. The business on this district has become so great of late that a chief dispatcher had to be placed in authority at this end, additional dispatchers employed and every possible facility to improve and increase was minutely considered in order to improve the service.

Local officials stated this morning that they were aware the road had this matter under consideration, but did not know that it had been officially announced until Superintendent A. H. Egan's statement was shown them. It is presumed the signals will be installed at once and will be placed every four miles apart.

ARE CUTTING DOWN THE CITY EXPENSES

Street Workmen all Pulled off But Two.

The Board of Public Works Has Been Investigating and Will Make Report.

SURFACE SEWERAGE DELAYED

The Board of Public Works last evening ordered all the men employed on the street by the city, laid off temporarily. It was stated by one member that the order would probably be effective only about one week. There are today only two men at work on the streets, and yesterday there were fifteen or twenty.

It is likely that the Board of Public Works will make some important changes. It is claimed that very little system has been used in doing city work, and that it would be astonishing to know how the drivers of teams have been allowed to do what they pleased and go where they pleased, although being paid by the city. It is said that members of the board made a tour of the city last week, spending nearly a whole day inspecting the methods employed in the street department.

It is understood the board intends to shortly present a report detailing the amount of money spent on the streets and where it went, who has been selling gravel to the city and who has been hauling it.

The storm water sewerage on South Third street cannot be built for some time yet. The brick that have adorned the sidewalks since last fall will all have to be removed or laid before the excavations for the storm water sewerage are made, and when this will be no one can tell, as the contractor now has but a small amount of either gravel or sand, with no more in sight.

The Tennessee will complete repairs in a day or two and will go out Saturday, her regular day, thus losing one trip.

BABY'S ECZEMA

Top of Head Covered with Scales Which Peeled off Taking Hair with Them.

CURED BY CUTICURA

Now Six Years Old with Thick Hair and Clean Scalp. Cure Permanent.

"My baby was about six weeks old when the top of her head became covered with thick scales, which would peel and come off, taking the hair with it. It would soon form again and be as bad as before. I tried several things and then went to the doctor. He said it was Eczema, and prescribed an ointment, which did not do any good. A friend spoke of Cuticura Soap. I tried it and read on the wrapper about Cuticura Ointment as a remedy for Eczema. I bought a box and washed her head in warm water and Cuticura Soap and gently combed the scales off. They did not come back and her hair grew out fine and thick. She is now six years old and has thick hair and a clean scalp."

MRS. C. W. BURGESS, Iranistan Ave., Bridgeport, Conn., Feb. 21, 1898.

THE TOBACCO TRUST HAS A CORNER

The Continental Company Said to Have Bought Burley.

The Crop Will Be Short and the Price Has Gone Soaring.

SOME CAUGHT NAPPING

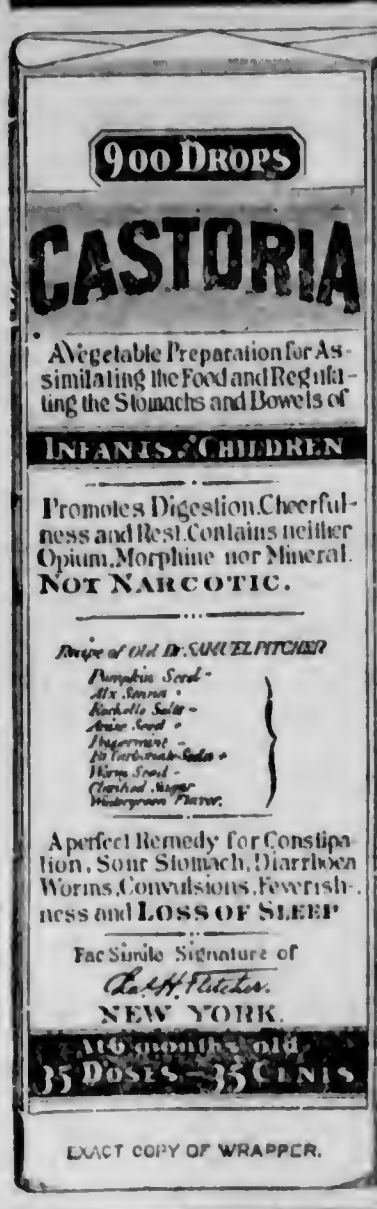

The Continental Tobacco Company, better known as the American "trust," has cornered the Burley tobacco market, according to the Louisville papers. They state that the company has purchased in Louisville and Cincinnati lately about 80 per cent. of all the Burley offered, and that it has obtained practically all the Burley in the farmer's hands, and in addition has bought up the new crops, contracting to take them at almost any price.

It is estimated the company has bought up between 8,000,000 and 10,000,000 pounds within a few weeks and had it known sooner of the shortage in the crop, would have bought more, and could have done it in a more leisurely manner, and at a lower price. When the discovery came it was so late that they had to begin buying quickly, and they did so. Prices have advanced from \$3 to \$5 a hundred, and some of the tobacco that could not be sold at \$5.50 a few months ago has recently been closed out at \$10 and \$11.

Tobacco men predict that this corner will force the independent manufacturers to either go out of business for awhile, or adopt some substitute for Burley, as there will not be enough of the latter to go around.

It is said many of the independent manufacturers have a very tight stock, and have been caught napping.

This so called corner does not affect the local market, according to tobacco men. No burley, practically, is sold in his territory, most of it being sold in Louisville.

MUCH MONEY WILL BE DISPOSED OF

Important Meeting of Methodist
Board This Month.

Many Prominent Men To Gather
in Louisville April 29
and 30.

THE BUSINESS ON HAND

More money than was ever before at the disposal of the General Board of Church Extension of the Methodist Episcopal Church, South, will be distributed for the building of new churches by the board when it meets in Louisville April 29 and 30. The available fund for donations amounts to about \$10,000, while \$50,000 is available for the loan fund, which will be used to assist struggling churches. The board will be in session two days and will distribute the money to the churches which are thought to need it the most. About two hundred applications will be considered. Dr. R. H. Gilbert of Louisville will probably be elected president of the board to fill the vacancy caused by the death of Presley Morgan. All the officers will be elected to hold office until 1906, when the General conference will meet. The present officers are: Dr. R. H. Gilbert, vice president; John Quenbaker, treasurer; P. H. Whisner, corresponding secretary. The latter two will probably be re-elected.

The bishops who are members of the board and who will probably attend are: R. K. Hargrove, Nashville; A. W. Wilson, Baltimore; W. W. Duncan, Spartanburg, S. C.; Charles H. Galloway, Jackson, Miss.; E. R. Hendricks, Kansas City; Joseph S. Key, Sherman, Tex.; O. P. Fitzgerald, Nashville; Warren A. Candler, Atlanta; Henry O. Morrison, New Orleans; E. Hess, Dallas, Tex.; A. C. Smith, Norfolk, Va. The following bishops will not attend: John O. Keener, New Orleans, and John C. Granberry, Aspland, Va.

The most important business will be the distribution of the fund contributed by the church for extension. The total sum contributed during the year is equally divided, one-half going to the general board and the other half being distributed by the district conferences. This year the general board will have \$15,000 to be distributed for church extension. This fund will be donated and the churches receiving it will not have to return it. The largest sum ever distributed by the board prior to this time was \$31,000. In addition to this fund the board will have about \$50,000 to be loaned to churches in need of help. The churches are required to pay it back in half yearly installments, paying a per cent interest.

NEW CAPITOL

SECRETARY TAFT SAYS IT WILL
BE OF GREAT BENEFIT.

Chicago, April 12.—Plans for the new capital of the Philippines have been made known by the Secretary of War, William H. Taft. Secretary Taft said:

"The new capital will be about 155 miles from Manila on a plot of ground over 3,000 feet above the sea level, which will make it far more healthy for Americans."

"It is to be to the Philippines what Simla is to India, and will be of great benefit to the islands. The climate is superb, the location is good and the opportunities for men with capital will be very great."

A FAT GIRL

STRANGLE TO DEATH BECAUSE
OF HER SIZE.

St. Joseph, Mo., April 12.—Sadie Hale, aged 17 years, died from what the physicians believe was natural strangulation. She weighed 400 pounds and was but 4 feet tall.

Miss Hale began growing rapidly two years ago, and the doctors could not stop it. It is believed that the fat became so heavy around the internal organs that the girl smothered to death. This is the only explanation the physicians can give.

Board of Public Works Adopts New
Plan For Street Repairs in
Paducah.

A MEETING HELD LAST NIGHT

The Board of Public Works last night held a meeting and elected Mr. J. O. Kebbler superintendent of the city light plant, with Alderman Lucian Durrett as assistant. Mr. Kebbler has been acting as superintendent for the past year, having succeeded Mr. Harry Wallace. The superintendent gets \$100 a month and the assistant \$70.

While Durrett has never had any actual experience as an electrician, he has taken a course in it recently "on the fly." He will tender his resignation as a member of the board of aldermen at the next meeting. He has been in the board since it was established, and was formerly president of it.

An important action of the board of public works last night was in ordering Foreman James Baker to stop repairing the streets with gravel. It is generally recognized that the stuff brought as gravel in Paducah is hardly worth handling, and the board is determined not to have the city pay for any more of it if there is any way to prevent. The plan is to have the streets needing repairs torn up and re-laid with the street roller, which has already been done with apparent success on Jefferson and Court streets.

The board announces that all property owners must hereafter keep up sidewalks in front of their property. All persons or corporations who dig up the streets will be required to replace them in good condition, and the

W. O. Overstreet, residing at 913 Trimble street, in charge of P. F. Tully's meat department, corner of 10th and Trimble streets, says: "I

have been refused by two different insurance companies lately on account of kidney trouble. My back was always aching and if I stooped over I could hardly straighten. I finally got right down idea and friends told me I must do something or I would die. I felt so languid and weak from the constant drain caused by the kidney trouble that I realized that I must do something more than what was being done for me. I am a poor hand to use samples or try remedies, but reading an advertisement one day about Doan's Kidney Pills and what they had done for just such a case as mine I resolved to try them. I was suffering more than anyone could describe at the time I sent down to DuBois & Co's drug store for a box of the pills. In less than a week I was feeling so much benefited by their use that I began telling my friends that it would only be a short time before I would be as sound as any man. The kidney secretions gradually disappeared, the annoyances ceased and I could sleep a full night without trouble. Well I continued to take them, buying more of them and they have done me a wonderful sight of good. I don't have occasion to complain of my back now, and have found out that the cause of it was the kidneys. I feel that I am cured, and don't look for any recurrence of the trouble, but if such a thing should happen, Doan's kidney pills will be what I shall use. I have induced several people to use them and I know they were benefited. You can use my name as a reference for I know that Doan's Kidney Pills are a grand remedy that will cure."

A WEAK STOMACH will not allow one to eat enough to keep up health and strength. A weak stomach can not digest enough food to keep up the strength even if it were eaten. Do not try to cure dyspepsia or any other stomach trouble by dieting. Satisfactory work of muscle or brain can not be performed on half rations. A variety of food and plenty of it is necessary.

KODOL DYSPEPSIA CURE

Kodol Dyspepsia Cure is the remedy that will let you eat all you need—or want. If you will use Kodol you will soon be able to eat any and all kinds of food. Kodol is the only digestant or combination of digestants that will digest **all** classes of food. When you take Kodol everything you eat tastes good, and every bit of the nutriment that it contains is assimilated and appropriated by the blood and tissues. Did you ever hear of a man or woman being sick or weak who could eat heartily and who enjoyed their meals? Every man, every woman and every child who is sick, puny or weak can soon eat heartily and enjoy every meal if they will take Kodol. A truth worth repeating: *When you take Kodol everything you eat tastes good, and every bit of the nutriment that your food contains is assimilated and appropriated by the blood and tissues.*

Hinesville, Ga., Sept. 1, 1902.
I have been selling Kodol Dyspepsia Cure since 1877 and have never had a single complaint. As it has proven so successful and is decidedly the best stomach medicine I ever handled, I decided to try it myself, and can state truthfully that it has done me more good than anything I ever used for indigestion and Dyspepsia. WANTS HOLIDAY

For the Children When Gunboat Arrives.

Supt. Leib Thinks It Will Be a Good Thing For Pupils.

Supt. Leib, of the Paducah public schools, will ask the school board permission to disband the schools on the day the gun boat Nashville arrives here in order that the pupils be enabled to see the vessel.

Supt. Leib stated this morning that this would be an education in itself. In the fact that few pupils here have ever seen anything like a gun boat, and an inspection of "the real thing" would give the pupils a correct idea of war vessels impossible to impart by teachings from models and pictures.

This is done in nearly all river cities possible to secure a visit of some gun boat, and Supt. Leib desires that the pupils of Paducah be accorded every advantage and opportunity to view the craft. If the pupils are dismissed a half day to see the Nashville, the teachers will accompany them and go over the boat to point out everything of interest. Supt. Leib will make this request as soon as the school board meets again and if the board arrives before the boards meet, will make the request of the chairman Dr. J. R. Coleman.

NO VERDICT

LOCAL MILITIAMEN STILL WAITING FOR GOVERNOR'S DECISION.

Captain James Caldwell and Lieutenant Jesse Moss are anxious to learn the result of the court martial trial held here by Major Bassett several weeks ago when over a dozen Wheeler guards were tried for breach of discipline.

Major Bassett has filed the report of his court martial with Governor Beckham who will either approve or disapprove of the sentences and fines imposed, but as yet he has taken no action in the matter.

Governor Beckham has been busy but now that most of the accumulated business has been disposed of, it is thought he will act shortly. The result of the trial will be watched with much interest, as it is probably the biggest court martial held in state militia circles in some time, and it is understood some extreme fines were imposed on some members of the local military company.

South Bend, Ind., April 12.—Miss Lizzie McCarty of Marion enjoys the distinction of having been married seven times in nine years. The first husband was Jesse Hommer, whom she married when she was 20 years old at Kokomo, and was divorced from him three months later. Two months later she married him again, and in less than four months got a divorce from him.

Her third husband, Lemuel Moore, was sent to the Michigan city prison and she obtained a divorce from him. She moved to Tipton, and there married Levi Jack, from whom, in less than a year, she got a divorce. The trouble killed this husband it is said.

Then she married Eli Coats at Tipton and lived with him two years, when she got a divorce on account of cruel treatment. She went to Marion and married Ed Hunt, from whom she obtained a divorce after six months. She resumed her maiden name.

KNOCK FOR MUNICIPAL OWNERSHIP.

The theory of municipal ownership
has been dealt a hard blow at Chicago,
where the people by a majority of
about 70,000 voted in favor of the
city's owning the street car lines in
the Windy City. The people of Chi-
cago seem to be in favor of the city's
owning the street car lines, although a
majority of 70,000 in a city the size of
Chicago is not a very significant one,
after all. The trouble is that now
that they have carried their point so
far as the voting is concerned, there
is no way Chicago can get the car
lines. This is apparently one thing
that the people, as usual, have failed
to reckon on. Probably a great many
people are under the impression that
if they decide by a majority vote for
the city to own a street car line, a gas
company, or other utility, all they
have to do then is to take possession.
But they have a great deal to learn
on this score. In Chicago they are learn-
ing every day. Chicago has no money
with which to pay for the companies.
Mayor Harrison says:

"Municipal ownership in our present
condition is an impossibility. We
have no money to take over these
traction interests, and even if we had
they would not sell to us. I would
like some of these people who have
been so insistent for municipal own-
ership to come in and tell me how we
are to bring it about."

"It is estimated that between one
hundred and three hundred million
dollars would be necessary to buy the
car lines—if they were for sale. The
owners, however, say that they are
not willing to sell out, and cannot be
made to sell out, hence if Chicago had
the money there would still be a seri-
ous question whether or not the peo-
ple could own the street car lines."

There is really very little in these
socialistic questions of municipal
ownership. The public, often the
more ignorant classes, is wrought up
to a high pitch of expectancy by the
sophistries of cranks, but in a ma-
jority of cities municipal ownership
of such utilities, if possible at all,
would be just like a city managing
other things. In some, where the
officials have the interest of the peo-
ple at heart, and set out with only
one purpose in view, that of building
up a city of which everybody may
justly feel proud, such as Baltimore,
the "city without a graft," munici-

pal ownership would doubtless have
its advantages. In vastly more cities,
however, every utility would soon be
dominated by politics, and would be
run about like other things are run
when they are controlled by politics.
If municipal ownership is a good
thing, it ought to be started early in
the life of a municipality.

It would if public officials, or voters
who elect public officials, had a little
foresight. It is wrong, however, to
expect that after individuals have
invested their money in an uncertainty
and by dint of hard work, brains and
their capital built up a paying busi-
ness, they should have the people,
often tens of thousands of common,
ignorant people like the foreigners in
Chicago who can hardly earn even a
meagre living vote, to force them to
sell out just at the time they are in a
position to enjoy the profits of their
labors. Chicago's predicament, how-
ever, should be a lesson to municipal
ownership fanatics. Chicago has
voted to own her street cars, and
can't own them because she hasn't
the wherewithal to purchase. And as
the mayor himself says, it will be
many a year before she can get the
money, if she ever can.

LET'S HAVE SOME LIGHT.

As a matter of public interest, the
Board of Public Works should prepare
a statement showing how much money
has been spent in Paducah for gravel,
from whom it was purchased, how
much it cost, where it was put and
who hauled it, and what was charged
for hauling it. When it is seen who
gets the benefit of the enormous
amount of money the city spends
every year for street repairing, so-
called, some reason for not wanting to
begin work on the permanent improve-
ments, expected by the people when
they voted the \$100,000 bonds, may
be found. Every block of street not
paved costs the city money for repairs.
Gravel has to be bought, hauled,
spread, and then carted away in a few
months as dirt. If fifty blocks of the
streets used most were paved, it would
knock a big hole in somebody's profits.
The tax payers will not care anything
about that, however. It is not un-
derstood why there should be so much
inexorable delay in these improve-
ments. No excuse is offered. The
suit to test the validity of the bonds,
although generally believed to have
been unnecessary, will be decided soon,
and in the meantime, in anticipation
of a favorable decision, a great deal
could have been accomplished. Have
the boards ever done anything at all?
Have they even decided on what
streets are to be paved so the engineer
might make the surveys and prepare
the specifications to be used in secur-
ing bids on the work? In fact, have
the legislative boards ever done any-
thing at all except refer the matter to
first one committee and then another
and keep putting off action from day
to week, and from week to month?

In the absence of any sensible ex-
cuse, the people, from divers and an-
nual expressions heard, seem to be
thoroughly disgusted with the manner
in which public business is being con-
ducted in Paducah.

A French writer has just written
a most creditable criticism of the hero
worship in America which prompted
the people to praise Admiral Dewey
and call him a hero because of the
battle of Manila. The Frenchman
says the so-called battle of Manila
was nothing but a wanton wholesale
murder, as he was there and saw it.
He says that the United States vessels
attacked a lot of Spanish hulks and
killed the sailors by the thousand,
without giving them a chance to en-
render. The Frenchman may have

been at the battle of Manila, but he
doesn't talk like it.

Capt. Richmond Pearson Hobson
does not appear, from present returns,
to have worked the long-suffering
American people for a seat in Con-
gress, in addition to the many other
things he has secured on the strength
of his being a hero. What congress-
men from the south is a few cool,
sensible men, not "heroes."

Somebody has "tipped" it off that
the bond issue voted by the people
of Paducah last fall is invalid. Prob-
ably the wish was father to the
thought. At any rate there is a cer-
tain element that has been trying to
beat the bond issue from the start,
and from indications it is still trying.

VALUATION OF NEW YORK REALTY.

Immense Sums Paid for Tracts in De-
sirable Localities.

Leaving aside the vast valuations
added to it by consolidation, the ac-
cumulations of property on Manhattan
Island alone have been astounding.
Once sold in bulk for \$24, the island
now has a tax valuation, real and per-
sonal, of \$2,908,755.146. Its real estate
values have risen prodigiously from
the initial market quotation. Im-
mense sums have now to be paid for
tracts in desirable localities, as high
as \$400 per square foot having been
asked for sites in business sections,
making a price of \$1,000,000 for a lot
25 by 100. Immense fortunes have
been built up by the increment of real
estate values, the most striking ex-
ample of these being the Astor es-
tate founded on extensive purchases
of land when the latter could be had
for trifling sums. Like attracts like,
and so Manhattan is attracting to it
makers of fortunes from all parts of
the country. No other city possesses
so many millionaires as does New
York, and their presence here is no
slight factor in the running up of
property rights.—Lewie's Weekly.

When Water Was Not Popular.

Until comparatively recent times
there was a medical prejudice against
drinking water. Sir William Vaughan
in his "Natural and Artificial Direc-
tions for Health" declared that water
"ought seldom to be drunk." Another
doctor admitted that it might be
healthful for children, but not for
men—"except some odd abstemious
one among a thousand, perhaps, de-
generate and of a dogish nature, for
dogs of nature do abhor wine." In-
deed, the recommendation of water as
a beverage was supposed to be the
sign of the quack. Even Wesley, in
his "Primitive Physics" wrote of it
with caution: "Bring only water if it
agrees with your stomach; if not,
good, clear small beer."

A Personal Matter.

"I think I am giving general satis-
faction," said the young clerkman a
little doubtfully, "although Elder Wil-
kins has found a good deal of fault
with my prayers." "You are sure to
have that trouble," responded the re-
tired pastor with a reminiscent sigh.
"The elder is a good man, a most
worthy man. But he never can re-
member that he is not the party ad-
dressed in prayer."

little Girl Had Found Out What
Caused the Lightning.

Gertrude's father bought a camera
short time ago, and tiny Gertrude
has been much interested in everything he
did with it. One evening recently a
heavy thunderstorm came up. Usual-

and lightning, but this evening she stood
by the window watching the flashes
of lightning in quite an unconcerned
manner. "Come away from that win-
dow, Gertrude," said her brother Tom,

afraid?" answered Gertrude. "I know
now what makes the lightning; it's
the angels taking flashlight pictures."

Good Health to the Children

Children especially are fond of dainties, and the housekeeper must look carefully to their food.

As good cake can be made only with good eggs, so also a cake that is healthful as well as dainty must be raised with a pure and perfect baking powder.

Royal Baking Powder is indispensable in the preparation of the highest quality of food. It imparts that peculiar lightness, sweetness and flavor noticed in the finest cake, biscuit, doughnuts, crusts, etc., and what is more important, renders the food wholesome and agreeable to young and old.

Theatrical Notes.

The Seward show had a good crowd and gave a satisfactory performance at the Kentucky last night, and will be here all the week. The advance sale indicates another large crowd this evening.

Jack Doyle, who played one of the villains in "Lost River" here recently, narrowly escaped death at Louisville Sunday night. There is used in the play a horse, which dashes out and is stopped by a toll gate. The horse dashed out as per program, but swerved, falling "partially" over the footlights, and scattering the orchestra, as well as almost creating a stampede in the audience. Although the animal fell on top of the actor the latter escaped serious injury.

The "Eight Belles" company which was here recently has decided that the pig it carries is a "hoodoo," and tried to abandon it at Louisville. The pig is used in the last act, and ever since they got it, business has continued falling off, so some of the superstitious members carried it away and left it in the street, but a policeman found it wandering around and took it back to the theater, and at last accounts it was still with the company.

Hids will be received on window shades for the Carnegie Public Library as follows:

ARMY TRIALS

AN INFANTRYMAN'S LONG SIEGE.

This soldier's tale of foot is interesting.

During his term of service in the 17th Infantry in China and Philippines, an Ohio soldier boy contracted a disease of the stomach and bowels which all army doctors who treated him pronounced incurable, but which Grape Nuts food alone cured.

"In October, 1899, when my enlistment expired, I was discharged from the Army at Oatline, Philippines, and returned to the States on the first available steamer that left Manila. When I got home I was a total wreck physically and my doctors put me to bed saying he considered me the worst broken-down man of my age he ever saw and after treating me six months he considered my case beyond medical aid.

"During the fall and winter of 1900 and '11 I was admitted to the Barnes Hospital in Washington, D. C., for treatment for chronic inflammation of the stomach and bowels but after 5 months returned home as bad as ever.

"I continued taking medicine until February, 1902 when reading a newspaper one day I read about Grape Nuts and was so impressed I sent out for a package right away.

"The result is quickly told for I have used Grape Nuts continually ever since with the best results, my health is so I can do a fair day's hard work, stomach and bowels are in good condition, have gained 40 pounds in weight and feel like a new man altogether.

"I owe my present good health to Grape Nuts beyond all doubt for medical science was exhausted." Name given by Postum Co., Little Creek, Mich.

Had he consulted any one of several thousand physicians we know of, they would have prescribed Grape Nuts immediately.

Look in each package for the famous little book, "The Road to Wellville."

REPORTED DEAD

RELATIVES OF MACK GARRETT HEAR BAD NEWS, AND ARE INVESTIGATING.

Relatives in Paducah today heard bad news in regard to Mr. Mack Garrett, a well known painter who went to Texas some time ago to work. A painter from St. Louis who arrived here to work stated that he was told there by a painter from Texas who was well acquainted with Mack Garrett, that the latter fell from a bridge which he was painting about three months ago, at Beaumont, Texas, and was killed.

While relatives here do not understand why they should not have been notified in case of such an occurrence, they have not heard from him for some time, and upon hearing the report today promptly telegraphed to Beaumont to get the facts, but have not yet received an answer.

Mack Garrett is well known in Paducah. He is a nephew of Mrs. Joe Petter, wife of the jeweler, and has a sister working at Mrs. Girard's, and is also related to Mr. Alex McConnell, the artist, and to many other people here.

John B. Clark, carrier of rural route No. 2, today filed a suit in circuit court against Dr. Frank Boyd for \$500 damages for injuries sustained by being thrown out of his wagon on the afternoon of March 12.

Clark was driving on Brentway when Dr. Boyd came spinning down the road in his automobile. Clark's horse became frightened and threw the driver out, injuring him. He asks for \$500 damages, claiming the accident was due to the defendant falling to stop and take the necessary precaution to prevent a runaway.

WAS HE A DOCTOR?

Good Samaritan Wasp Helped His Unfortunate Brother.

A story of how one was cared for another that had been injured is told by a gentleman who, while reading the newspaper, felt bothered by the buzzing of a wasp about his head and knocked it down. It fell through the open window and lay on the sill as if dead. A few seconds afterwards, to his great surprise, a large wasp flew to the window-sill and, after buzzing round his wounded brother for a few minutes, began to feel him all over. The injured wasp seemed to revive under this treatment, and his friend then dragged him gently to the edge of the window and the wasp, and flew away with him. It was plain that the stranger, finding a wounded comrade, gave him aid as well as he could and then bore him away home.

Varieties of Our Language.
The late Dr. Tanner when in parliament once moved the house of commons to apportion laughter by his uncertainty with regard to the word "scheduled." First he made the "ch" hard, in the American manner, and when that was received with a laugh he paused and floundered over it like a startled schoolboy. As he plunked from one pronunciation to another the house shouted with merriment. As a matter of fact, the best English dictionary gives a choice between "scheduled," "redigle" and "shudule."

Use Shoffner's Sure Cure

The Great Tonic and Blood Purifier—Cures Indigestion, Dyspepsia and Catarrh.

It cures all inflammation of the stomach and bowels. Heals the irritations, restores the liver and kidneys to a healthy action, thoroughly destroying all effects of indigestion, such as Sick Headache, Sourness of the Stomach, Regurgitation, Spitting of Food, Palpitation of the Heart, Heartburn, Fullness of the Stomach, Flatulency, Shortness of Breath, Nervousness, Diarrhoea, Constipation, etc.

SUFFERED ALL HER LIFE.

Miss Emma McIlwain Could Find No Relief Until She Took Shoffner's Sure Cure.

Covington, Tenn., March 27, 1901.
Mr. M. L. Shoffner,
Shoffner-Hayes Med. Co.

To give you a full description how I suffered from indigestion would make a book when written out. Will tell you as near as I can in a few words as possible. I have suffered with indigestion for years, in fact, nearly all my life, but did not know it, until four years past, and my physician told me. He put me on malted milk and a tonic which did me no good, and I lived on the milk nine months without missing a meal. I was almost starved and commenced to get very thin. Then thought it would finally kill me. Up to November 1900, I suffered fearfully, and sometimes I thought every breath would be the last one. I was so weak that I

could walk but a few steps without resting, and vomited day and night, was so badly swollen it was painful to move. My limbs and back hurt me so I couldn't rest day or night. I am sure nobody ever suffered more than I did with indigestion. I had heard of your medicine, Shoffner's Sure Cure, but of course had no faith in it like all others, but in November I decided to try it. I commenced to try it on Friday at dinner and by Sunday dinner had taken six doses, and went down to dinner and ate just what I wanted of everything on the table, and it didn't hurt me at all. I have taken four bottles and am stronger and feel better than I have in years. I tell everybody to take your medicine and advertise it all can. You can use what you please of this letter, and I sincerely hope it will help you sell your medicine. I can truthfully say it is fine for indigestion. I hope God may spare you to live and make this medicine always. With best wishes all along through life for you.

LORD CURZON.

WILL NOT RETURN TO INDIA—HIS WIFE IS ILL.

London, April 12.—With the possible exception of the sudden development of the duchess of Marlborough's new fat for the reclamation of the unfortunate of her sex, on the lines laid down by Lady Henry Somerset, and in the prosecution of which she may draw the young duchess of Roxburghe after her, the only event of recent import has been the arrival of a little girl baby at the home of Lady Curzon of Kedleston, the wife of the viceroy of India, and once Miss Mary Leiter of Chicago.

This pleasant break in the general monotony was immediately followed by the announcement that Lord Curzon will return to England on an extended leave of absence.

A natural wish to see his newest baby might reasonably enough inspire the action of Lord Curzon. But even Mr. Balfour's carefully framed and highly ambiguous reply in the House to a question as to whether Lord Curzon's return to England would involve his resignation, that the return of the viceroy would of necessity end his term of office and that it would then be open to the king to reappoint him if he chose to do so, does not serve its purpose of hiding the truth, which is that Lord Curzon has no intention of returning to India.

To those who are aware of Lady Curzon's intense dislike of India and the thousand petty ceremonies and rules of etiquette in which she has had an enforced part, the speedy termination of Lord Curzon's reign seems certain. Lady Curzon's health has suffered severely under the strain of the duties imposed on her, and when she left India a few weeks ago it was with the determination that no power could induce her to return.

POLICE BOARD.

MEETING HELD BUT NOTHING OF IMPORTANCE DONE.

The board of fire and police commissioners met last night but transacted little business.

Chief of Police James Gillies reported to the board that Officer Ernest Hill decided not to resign and no successor was consequently elected. Fire Chief James Woods reported that the work on the new station was progressing rapidly and would be pushed as rapidly as possible in order to have the buildings finished in time for installing the apparatus when it arrives.

The commissioners discussed the matter of Officer Ed Clark's election to the office of license inspector. When Mr. Clark qualifies as license inspector, the vacancy will then be filled on the police force by the commissioners who will call a special meeting for this purpose.

USED LIFE PRESERVER

ILLINOIS PRISONER ESCAPED TO THE KENTUCKY SHORE.

Deputy Sheriff Harvey McCormick, of Galesburg, went to Hannaleburg, Ill., after George Reynolds on the charge of selling whiskey without a license. He secured his man after some search and was taking him to Galesburg on the steamer Royal.

The officer kept an eye on Reynolds when landings were made, but when the boat was again under way he was less vigilant and allowed his prisoner the freedom of the craft. This side of the Bayou the deputy sheriff discovered that Reynolds had deliberately taken a life preserver and jumped overboard shortly after the boat pulled out from Bayou, and swimming to the Kentucky shore, made his escape.

THEIR MOVE

DEMOCRATS TO BE SHOWN WHERE PRESIDENT JEFFERSON ENTERTAINED A NEGRO.

Washington, April 12.—The Democrats in the House, who have been making much of the Booker T. Washington incident at the White House, will be privileged to listen soon to a speech from Representative Bartholdt, of St. Louis, who will relate a historical fact in connection with the administration of Thomas Jefferson. The latter, he has discovered in a book published by a St. Louis publishing house, entertained at his table in Monticello, in 1815, one Julius Melbourn, at that time perhaps the most distinguished member of the negro race. It was not an accidental or impulsive act of the President, either, in inviting the negro to lunch with him, but by a formal invitation card Melbourn was summoned to dine with the Democratic President, and at the same board he met, among others, Chief Justice Marshall of the United States Supreme Court.

The negro afterwards published a book in which he gave the details of this meeting and dinner and it is from this book that Mr. Bartholdt will quote his speech, having found the volume in the congressional library.

FREE FACE BLEACH FOR COMPLEXION

I WILL SEND FREE TRIAL BOTTLE OF MY FACE BLEACH TO ANY LADY SENDING NAME AND ADDRESS.

MME. A. RUPPERT, 6 E 14TH ST., New York City

How to Obtain a Lovely COMPLEXION Clear and Beautiful

It is every woman's duty to be as youthful and good looking as possible, and there is nothing which adds more beauty than a lovely complexion, and there is no remedy which will restore the complexion and give one that youthful appearance like Mme. A. Rupert's World Renowned Face Bleach. This grand remedy clears the skin of every discoloration, and impurity, including pimples, freckles, moth patches, brown spots, liver marks, comedones, flesh-worms, blackheads, oiliness, sallowness, wrinkles and skin diseases. It accomplishes these wonderful effects by drawing the impurities and discolorations to the surface of the skin and then removing these blemishes by gradually sealing off a light surface of the outer skin. It does this in so natural a manner as to be entirely harmless to the most delicate complexion, and, having this action, it cannot fail to produce excellent effects. Most marvelous results are obtained when Face Bleach is used according to my new special directions in conjunction with my Egyptian Balm, which nourishes and feeds the tissues and glands of the skin, and adds the finishing touch which refines, purifies and preserves the skin in its pristine splendor, giving it the glow of youth.

Now, in order that every lady reader of this paper may obtain the highest possible effect from the use of my preparations, I will make the following stipulations offer to all callers at the below address. A bottle of my Face Bleach, a trial jar of my Egyptian Balm, a jar of my most exquisite Almond Oil, Complexion Soap, my New Special Directions, my book, "How to be Beautiful," all for \$2. The price of Face Bleach alone is \$2 per bottle, hence you receive articles absolutely free.

Everything in Season.

A Wife Says:

"We have four children. With the first three I suffered almost unbearable pains from 12 to 14 hours, and had to be placed under the influence of chloroform. I used three bottles of *Mother's Friend* before our last child came, which is a strong, fat and healthy boy, doing my housework up to within two hours of birth, and suffered but a few hard pains. This liniment is the grandest remedy ever made."

Mother's Friend

will do for every woman what it did for the Minnesota mother who writes the above letter. Not to use it during pregnancy is a mistake to be paid for in pain and suffering. *Mother's Friend* equips the patient with a strong body and clear intellect, which in turn are imparted to the child. It relaxes the muscles and allows them to expand. It relieves morning sickness and nervousness. It puts all the organs concerned in perfect condition for the final hour, so that the actual labor is short and practically painless. Danger of rising or hard breasts is altogether avoided, and recovery is merely a matter of a few days.

Druggists sell *Mother's Friend* for \$1 a bottle. The Bradford Regulator Co., Atlanta, Ga. Send for our free illustrated book.

A BIG SENSATION.

Created by a London Minister's Criticism of Scriptures.

A Glazette Controversy Started Which Interests the Christian World.

London, April 12.—Canon Hensen, one of the chief dignitaries of Westminster abbey and a select preacher of both Oxford and Cambridge universities has raised a storm of criticism by an article in the *Contemporary Review* in which he entered into the question of the future of the Bible. In this article Canon Hensen impugns the inspiration of the Old Testament, referring to "its incredible, perilous or demoralizing narratives," which are regarded as a pack of lies too gross for toleration.

Letters, interviews and resolutions, by church and lay bodies, denouncing Canon Hensen followed the onslaught. Sir Oliver Lodge, the distinguished scientist, added fuel to the fire by an article entitled "Suggestions toward the Re-interpretation of the Christian Doctrine." Canon Hensen declares "that inspiration is now not allowed to certify to the truth of any statement in the Bible which cannot be substantiated at the bar of reason and evidence." In the New Testament he finds little to offend reason or conscience, "but whether much or little it will have to go the way of the Old Testament prodigies." He recommends supplementing the reading of the Bible in church with "Christian compositions which have secured the approval of general acceptance," declaring that "indiscriminate reading of the Bible in public is an extremely perilous proceeding," and adding that "the rigidity which restricts the modern English church to canonical scriptures is as intrinsically indefensible as it is mischievous." Despite its intemperance, however, Canon Hensen holds that the Bible will continue for all time to be "the best manual of morality and the best corrective of ecclesiastical corruption, besides being the most effectual check on the materialistic tendencies of modern life."

"It would be idle to deny," he concludes, "that the credit of the scriptures is seriously shaken in the public mind, nor can it reasonably be doubted that the tendency of popular life at present are in the main hostile to Christian tradition."

What's the matter, Harkness?

"Listen. She's singing over her work." Parker stepped outside. On the pavement people had stopped to listen. They stood in the shadow, looking up with parted lips at the open, lighted windows whence came a clear, soft, ringing voice, lifted ineffably in song. Now it swelled louder unconsciously; now its volume was more slender, and it melted lightly into the night; again it trembled and rose and dwelt in the air, strong and pure, and hearing it the other toward heaven and continued. "For the name of Harkness shall!"

But Tipworthy's sister, Cynthia, was with him, and Parker saw that she turned from the window and that she was crying quietly. She put her hand on the boy's shoulder and patted it with a forlorn gesture which to the foreman's eye was as graceful as it was sad. He moved closer to him, and his big hand fell on Cynthia's brother's other shoulder as he realized that red hair could look pretty sometimes, and he wondered why the editor's stinging made Cynthia cry, and at the same time he decided to be mighty good to him henceforth. The spell of night and song was on him; that and something more, for it is a strange, inexplicable fact that the most practical chief ever known to the Herald had a singularly sentimental influence over her subordinates from the moment of her arrival. Under Harkness' domination there had been no more steadfast bachelors in Carlow than Ross Schofield and Caleb Parker, and like numerous youths in a graveyard, daring and mocking the ghosts in order to assuage their own fears, they had so glibly and jeered at the married state that there was talk of urging the minister to preach at them, but now let it be recorded that at the moment Caleb hid his hand on Harkness' other shoulder his associate, Mr. Schofield, was enjoying a walk in the far end of town with a widow, and it is not to be doubted that Mr. Tipworthy's heart also was no longer in his possession, though, as it was after 8 o'clock, the dancel of his desire had probably long since retired to her couch.

For a faint light on the cause of these spells we must turn to a comment made by the invaluable Mr. Martin some time afterward. Referring to the lady to whose voice he was now listening in silence, which shows how great the outbursting of her voice was, he said, "When you saw her or heard her or managed to be around anywhere she was, why, if you couldn't get up no hope of marryin' her you wanted to marry somebody."

Mr. Lige Willetts, riding idly by, drew rein in front of the lighted windows and listened with the others. Presently he leaned from his horse and whispered to a man near him, "I know that song."

"Do you?" whispered the other.

"Yes. He and I heard her sing it the night he was shot. We stood outside Harkness' and listened."

"So?"

"It's a seraphic song," he said, "continued Lige."

"No!" exclaimed his friend. Then, shaking his head, he sighed, "Well, it's mighty sweet."

"The song was suddenly woven into laughter in the unseen chamber, and the lights in the windows went out, and a small lady and a tall lady and a thin old man, all three laughing and talking happily, came down and drove off in the Harkness hackboard. William Todd took his courage between his teeth and the song ringing in his ears, made a desperate resolve to call upon Miss Harkness that evening in spite of its being a week day, and Caleb Parker gently and stammeringly asked Cynthia if she would wait till he shut up the shop and let him walk home with her and find.

Soon the square was quiet as before, and there was naught but peace under the big stars of July.

That day the news had come that Harkness, after weeks of alternate improvement and relapse, hazily lingering in the borderland of shadows, had passed the crucial point and was convalescent. His recovery was assured. But from their first word of him, from the message that he was found and was alive, none of the people of Carlow had really doubted. They are simple country people, and they know that God is good.

CHAPTER XII.

AN Indiana town may lie asleep a long while, but it always wakes up some time, and Paducah woke up in August, when the Herald became a daily. It was then that history began to be made. The Herald printed news. It had made a connection with the Associated Press, and it was sold every morning at stands in every town in that section of the state. Its circulation helped him to understand how things were afterward. On the second ballot, they nominate. Of course it can't be helped that Holloway has to be kept in the dark, too, but he's got to be.

"There's one danger," said Warren Smith. "Kedge Holloway is honest, but I believe he's selfish enough to disturb his best friend's deathbed for his own ends. It's not unlikely that he will get nervous toward the last and be tele-

graphing Harkness to leave himself carried on a cot to the convention to save him. That wouldn't do at all, of course. And Miss Sherwood thinks maybe there'd be less danger if we set the convention a little ahead of the day appointed. It's dangerous, because it shortens our time, but we can fix it for three days before the day we'd settled on, and that will bring it to Sept. 7."

"It's a great plan," said Mr. Harkness, who was an oratorical gentleman. He thrust one hand in his breast, raised the other toward heaven and continued, "For the name of Harkness shall!"

"Wait a minute," said Keating. "I'd like to hear from the Herald about its policy, if Miss Sherwood will tell us."

"Yes, indeed," she answered. "It will be very simple. Don't you think there

"Here's to our candidate."

is only one course to pursue? We will advocate no one very energetically, but we will print as much of the truth about Mr. McCune as we can, with delicacy and honor. In this case, but as I understand it the work is almost all to be done among the delegates. We shall not mention our plan at all, and we will contrive that Mr. Harkness shall not receive his copy of the paper containing the notice of the change of date, and I think the chance of his seeing it in any rough paper may be avoided. That is all, I think."

"Thank you," said Keating. "That is certainly the course to follow."

Every one nodded or acquiesced in words, and Keating and Harkness came over to Helen and engaged her in conversation. The others began to look about for their hats, vaguely preparing to leave.

"Wait a minute," said the judge. "There's no train due just now." And Minnie appeared in the doorway with a big pitcher of crab apple cider, rich and amber hued, sparkling, cold and redolent of the sweet smelling orchard where it was born. Behind Miss Harkness came Mildy Upton with glasses and a fat, shaking, four storied jelly cake on a second tray. The judge passed his cigars around, and the gentlemen took them blithely, then hesitatingly held them in their fingers and glanced at the ladies, uncertain of permission.

"Let me get you some matches," Helen said quickly, and found a box on the table and handed them to Keating. Every one sat beaming, and fragrant veils of smoke soon draped the room.

"Why do you call her 'Miss Sherwood'?" Boswell whispered in Keating's ear.

"That's her name."

"Ain't she the daughter of that old fellow over there by the window? Ain't her name Fisher?"

"No; she's his daughter, but her legal name's Sherwood. She's an adopt."

"Great Scott! I know all about that. I'd like to know if there's a man, woman or child in this part of the country that doesn't. I guess it won't be Fisher or Sherwood either very long. She can easy get a new name, that lady. And if she took a fancy to Boswell, why, I'm a back!"

"I expect she won't take a fancy to Boswell very early," said Keating.

"Go way," returned Mr. Boswell. "What do you want to say that for? Can't you hear for anybody to be happy a minute or two now and then?"

The next match games to be played here will be played on Thursday, Friday and Saturday between the Paducah K. I. T. league team and a crack professional team from St. Louis. This date was arranged yesterday and will enable the local fans to see some more good baseball.

All teams have remitted this guarantee money to Secretary Farnbaker and it will this week be forwarded to Treasurer Dick Brady, of this city. Everything looks good in all towns and the success of the league is assured.

The local grand stand and grounds have been repaired and there is now one entrance divided into two, one for the bleachers and one for the grand stand. The refreshment stand has been built new and a new ticket office erected. The grounds will be incessantly worked until they are in the best condition possible.

Mr. Sam Jackson, owner of the local team, has announced the full team as follows: Nippert and Land, alternate at catching and first base; Brady, Freeman, Henderson, pitchers; Potts, second; Bateman, third; Gillegan, short; Virgile, center; Violet, left and Barlow, right field. Girard will be a utility man. This will constitute the full team which with Manager Ray will make thirteen men out on the road, but then Paducah ball players are superstitious.

Willie Popp has been secured to manage the K. I. T. league Vincennes team this season. He is a pitcher and has played with Terre Haute and several other teams.
